Guaranteed Analysis

Calcium (Ca) 30.0%
1.00% Water Soluble Calcium

Derived from Calcium Carbonate

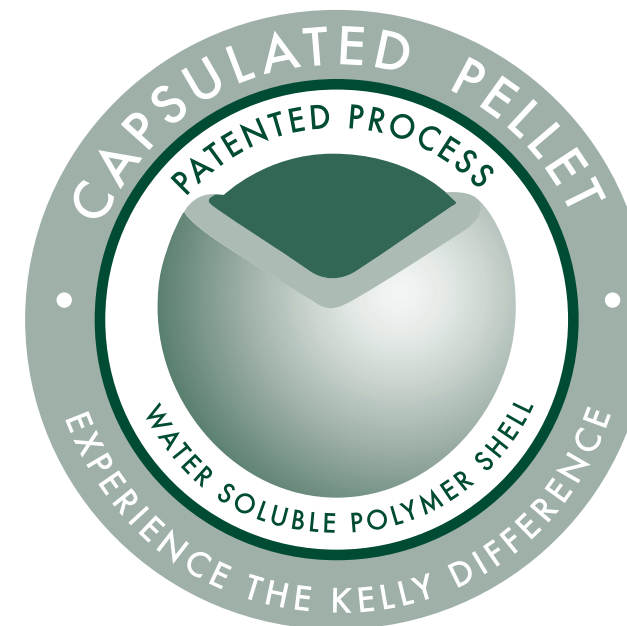

MAXI CAL APPLICATION RECOMMENDATION

The proper application rate depends on your soil test results.

To maintain optimum growing conditions, apply 5 lbs. per 1,000 sq. ft. or 200 lbs per acre, "once or twice" a year.

Under adverse soil conditions, to increase calcium in the soil profile apply 12 lbs. per 1,000 sq. ft. or 500 lbs. per acre "once or twice" a year.

Maxi Cal is a plant nutrient supplement that is ideal for turf and horticultural application.

FOR PROFESSIONAL USE

This product is NON-BURNING if used according to the directions
STORE IN A DRY PLACE
